# 2023 Orthopaedic Coding & Reimbursement Workshop

Two-part Virtual Workshop

---

Presented by:

Jennifer R. Cabrera, PA-C, MSPA, MPH

Karen Zupko & Associates

As a board- certified Physician Assistant, Jennifer has spent nearly 20 years in health care, with most of that time in orthopaedics. Her clinical experiences add to her understanding of the importance of solid documentation as well as diagnostic and procedural coding.

In 2011, Jennifer accepted the role of Director of Operations for a private orthopaedic practice in LA. She focused on all aspects of the practice from the revenue cycle to financial reporting and staff training. Most recently, she played a key role in the implementation of a new practice management and EHR system.

## Orthopaedic Coding and Revenue Cycle Two-part Virtual Workshop

---

You won't want to miss this two-part virtual workshop for a comprehensive look into effective and accurate coding and modifier use.
